Tap Dance with Your Potential

Don't dance around the perimeter of the person you want to be.

Dancing with the Stars

With so much attention placed on dancing because of TV shows like Dancing with the Stars, we do not need to dance around with our potential. First we need awareness of our potential and secondly, we need to know how to tap into it. Becoming aware of what lies in each of us and learning how to tap and draw from these vast pools is the beginning of greatness. Personal growth and strategic training in specific areas is also vital to your growth. This can also be accomplished with reading books by our mentors and from others with the knowledge and experience.

Keep this in mind, each participant on Dancing with the Stars has one partner for training and performance. However, when it comes to learning how to draw from your potential, you may need several partners to assist you to focus your actions for proper personal development. The phrase 'Dancing Around,' which is an old saying still used by some has an interesting meaning. Those who live out this phrase in their lives are simply avoiding, not taking seriously and putting off the important things that promote self-improvement. In addition, the definition of this phrase is to improvise in order to hide one's ignorance. It also means to use ambiguous or unclear expressions, usually to avoid commitment or in order to mislead.

Nothing is accomplished without seriousness, commitment and owning your own destiny!
