God is very plain in His Word about order, structure and delegated authority. When this is recognized and respected in churches and the workplace there will be harmony, peace and joy. Daniel has some personal experiences to share concerning submission to God and others. The Tower of Babel story has a lot to teach us about the statements above and wrong motives. Motives in business is very important for success. Daniel has learned that one of the best ways to get out of debt is to give. People are the way to God's heart. Listen and you will hear His heart say, 'give.' Love people and use money, but never love money and use people!
