Invest it well!

Time: A Valuable and Precious Asset

Think about a song from the sixties titled, 'Time is on My Side,' by the Rolling Stones. In no way does this song insinuate we have any control of time. Every movement of the second hand on the clock brings us closer to eternity. There is no stopping it. It is as sure as the law of gravity. No one can control time or change it. All we are able to do is monitor and manage it by using calendars and clocks. Each of us are the best managers of our own time and we still have trouble. Time is precious and we cannot replace it. In addition, no matter how hard we try, we cannot move time backward. We have a certain allotment of time. Therefore, we must manage it and spend it well. The first step in being a potential success is by becoming aware of the value of your own time. Invest it well!

Quotes Concerning Time

Time is what we want most, but what we use worst. ~ **William Penn**

My Favorite things in life don't cost any money. It's really clear that the most precious resource we all have is time. ~ **Steve Jobs**
